Independent Auditor's Report

Board of Commissioners
Freeport Park District
Freeport, Illinois

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Freeport Park District, Freeport, Illinois (the "Park District") as of and for the year ended March 31, 2020, and the related notes to the financial statements, which collectively comprise the Park District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Freeport Park District, Freeport, Illinois as of March 31, 2020, and the respective changes in financial position and, where applicable, cash flows thereof, for the year then ended in conformity with accounting principles generally accepted in the United States.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States require that the management's discussion and analysis, the multiyear schedule of contributions for Illinois municipal retirement fund, schedule of changes in net pension liability and related ratios for the Illinois municipal retirement fund, and the schedules of revenues and expenditures compared with budget as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Freeport Park District's financial statements as a whole. The schedules listed in the table of contents as "Supplementary Information" are presented for purposes of additional analysis and are not a required part of the financial statements.

These schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Management Discussion and Analysis

Freeport Park District

Management Discussion and Analysis

As management of the Freeport Park District (the “Park District”), we offer the readers of the Park District’s financial statements this narrative overview and analysis of the financial activities of the Freeport Park District for the year ended March 31, 2020.

The MD&A is provided at the beginning of the report to provide an overview of the Park District’s financial position at March 31, 2020 and 2019, and the results of operations. This summary should not be taken as a replacement for the annual financial report, which consists of the financial statements, notes to the financial statements, required and supplementary information.

Using This Financial Report

The financial section of this annual report consists of four parts - Independent Auditor's Report, required supplementary information which includes the MD&A (this section), the basic financial statements, and other supplementary information.

Government-Wide Financial Statements

The first two statements are government-wide financial statements that provide both short term and long term information about the Park District's overall financial status, similar to a private sector business. In the government-wide financial statements the Park District's activities are shown in two categories - governmental and business type activities. The Park District's basic services are general government, parks, building, and programs. Current operations of these activities are largely financed with property taxes.

The statement of net position presents information on all of the Park District's assets, deferred outflows, liabilities, and deferred inflows, with the difference between them reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Park District is improving or deteriorating. To assess the overall health of the Park District you need to consider additional non-financial factors such as the condition of the Park District's buildings and facilities.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. The government-wide financial statements are prepared under the accrual basis of accounting.

Fund Financial Statements

The fund financial statements provide more detailed information about the Park District's funds - not the Park District as a whole. Funds are accounting devices the Park District uses to keep track of specific sources of funding and spending on particular programs. Some funds are required by state law, while others are established to control and manage money for particular purposes or to show that the Park District is properly using certain revenues.

Freeport Park District

Management Discussion and Analysis

Fund Financial Statements (Continued)

Because the focus of the governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for each. By doing so, readers may better understand the long-term impact of the Park District's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate the comparison between governmental funds and governmental activities.

The Park District maintains ten individual governmental funds. Information is presented separately in the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances for all these funds. Seven of these ten governmental funds are considered major funds of the Park District.

The Park District adopts annual budgets for all major governmental funds and certain other funds. A budgetary comparison statement has been provided for the major governmental funds only, which is in compliance with GASB Statement No. 34.

General (Corporate) Fund Budgetary Variances

Revenues - The most significant revenues for the General Fund during fiscal year 2020 continue to be property and replacement taxes. Total revenues were approximately \$858,000 which was approximately \$40,000 more than the budgeted revenues.

Expenditures - Actual expenditures were less than budgeted disbursements in the General Fund by approximately \$104,000. The primary budgetary differences were related to less costly personal services and grounds and facilities expenses.

Recreation Fund Budgetary Variances

Revenues - The Recreation Fund receives most of its revenues from property taxes and user fees. Total revenues were approximately \$864,000 which were approximately \$21,500 under budgeted revenues. The primary budgetary differences were related to less revenue received for recreation programs.

Expenditures - The overall expenditures were less than the budgeted disbursements by approximately \$132,000. The Park District attributes this variance to efficient operations as well as reduced variable expenses.

Social Security/IMRF Fund Budget Variances

Revenues - The Social Security/IMRF Fund receives most of its revenues from taxes. The overall budgeted revenues were close to actual revenues.

Expenditures - The overall expenditures were less than the budgeted disbursements by approximately \$15,000. This was primarily due to a decrease in payroll related services.

Freeport Park District

Management Discussion and Analysis

Fund Financial Statements (Continued)

Museum Budget Variances

Revenues - The Museum Fund receives most of its revenues from property taxes. The overall budgeted revenues were close to actual revenues.

Expenditures - The overall expenditures were less than budgeted disbursements by approximately \$43,000. This was primarily due to less maintenance and utility costs, as well as less costs for grounds and facilities.

Tort Liability Budget Variances

Revenues - The Tort Liability Fund receives most of its revenues from taxes. The overall budgeted revenues were close to actual revenues.

Expenditures - The overall budgeted expenditures were close to actual expenditures.

Freeport Park District

Management Discussion and Analysis

Condensed Financial Information

Net position is summarized in the table below.

Condensed Statement of Net Position as of March 31, 2020 and 2019

	Governmental Activities		Business-type Activities		Total	
	2020	2019	2020	2019	2020	2019
Assets:						
Current Assets	\$ 7,326,463	\$ 7,312,588	\$ 989,476	\$1,104,494	\$ 8,315,939	\$ 8,417,082

Total liabilities	<u>746,691</u>	<u>883,449</u>	<u>155,711</u>	<u>192,389</u>	<u>902,402</u>	<u>1,075,838</u>
Deferred Inflows of Resources	<u>2,619,663</u>	<u>2,669,925</u>	<u>-</u>	<u>-</u>	<u>2,619,663</u>	<u>2,669,925</u>
Net Position:						
Net investment in capital assets	10,233,393	10,215,874	1,129,176	1,177,225	11,362,569	11,393,099
Restricted	2,569,713	2,909,614	-	-	2,569,713	2,909,614
Unrestricted	<u>2,887,659</u>	<u>2,571,963</u>	<u>833,765</u>	<u>912,105</u>	<u>3,721,424</u>	<u>3,484,068</u>
Total net position	<u>\$15,690,765</u>	<u>\$15,697,451</u>	<u>\$1,962,941</u>	<u>\$2,089,330</u>	<u>\$17,653,706</u>	<u>\$17,786,781</u>

The largest portion of the Park District's net position is reflected in its investments in capital assets (i.e., land, buildings, equipment, and infrastructure), less any related debt used to acquire those assets that are still outstanding. The Park District uses these assets to provide services. Therefore, these assets are not available for future spending. Although the Park District's investments in its capital assets are reported net of available debt, it should be noted that the resources required to repay this type of debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these types of liabilities.

Freeport Park District

Management Discussion and Analysis

Condensed Financial Information (Continued)

The Park District's net position consists of net investment in capital assets, restricted net position, and unrestricted net position. Restricted net position represents assets which have restrictions determined by an outside party.

Unrestricted represents net position that has not been restricted by an outside party. This includes funds that the Park District has designated for specific uses as well as amounts that are contractually committed for goods and services.

Revenues, expenses, and changes in net position are summarized in the table below:

Major sources of operating revenues for the Park District's governmental funds include property taxes and membership fees.

Capital Asset and Long-Term Debt Activity

Capital Assets

The Park District's investment in capital assets at year-end totaled \$11,926,149 (net of accumulated depreciation). This investment in capital assets includes land, buildings, vehicles, office furniture and equipment, and other equipment related to programs. There were \$533,737 of capital asset additions recorded during the year and \$724,686 of depreciation charges were expensed on the total capital assets. See Footnote (3) for details of capital assets.

Debt activity

At March 31, 2020, the Park District had approximately \$563,580 in debt which consists of general obligation bonds. See Footnote (4) for details of debt.

Freeport Park District

Management Discussion and Analysis

Management's Analysis of the District's Overall Financial Position and Results of Operations

The Statement of Net Position reflects an overall decrease in the Park District's total net position from the prior year of approximately \$133,000.

The Park District's General Fund balance increased approximately \$159,000 from the prior year. The Recreation Fund had an increase of fund balance of approximately \$144,000 from the prior year. The General Fund and Recreation Fund are the primary operating funds of the Park District.

The Park District has created financial stability through careful planning and use of our fund balances. The Park District will continue to complete capital improvements and repairs in accordance with our Capital Improvement Plan as well as continue to assess and implement the programming needs of our community.

Factors or Conditions Impacting Future Periods

Future goals include the expansion of the Park Districts trail system and continue cooperation with the City of Freeport and the Freeport School District to provide additional community programming to include special events. The Park District hopes that the additional special events will enrich the lives of our constituents as well as improve the financial health of the community through tourism revenue.

Contacting the Park District's Financial Management

This financial report is designed to provide our citizens, taxpayers and customers with a general overview of the District's finances and to demonstrate the Park District's accountability for the money it receives. If you have questions about this report or need additional financial information, please contact Freeport Park District, 1122 S. Burchard Ave., Freeport, IL 61032.

Notes to Financial Statements

Freeport Park District

Notes to Financial Statements

Note 1 Summary of Significant Accounting Policies

The Park District's financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) as applied to state and local governments. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The accounting and reporting framework and the more significant accounting policies are discussed below.

The Financial Reporting Entity

The Freeport Park District (Park District) is a municipal unit of local government authorized under Chapter 70 of the Illinois Compiled Statutes (ILCS), section 1205, governed by a five member elected Board of Park Commissioners. The District's major operations include public safety, golf course operations, recreation, development, and general government services. The Park District is located primarily in Freeport, Illinois.

In evaluating how to define the government, for financial reporting purposes, the Park District has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth in GAAP. The basic - but not the only - criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations and accountability for fiscal matters. A second criterion used in evaluating potential component units is the scope of public service. Application of this criterion involves considering whether the activity is conducted within the geographic boundaries of the government and is generally available to its citizens. A third criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the government is able to exercise oversight responsibilities.

The Park District's financial reporting entity comprises the following:

Primary Government - Freeport Park District

The Park District has determined that there are no component units required to be included in the financial statements.

Government Wide and Fund Financial Statements

The government wide financial statements (i.e., the Statement of Net Position and the Statement of Activities) report information on all the non-fiduciary activities of the primary government as a whole. For the most part any inter-fund activity has been eliminated from these two statements. The statements distinguish between governmental and business-type activities. Governmental-type activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Business-type activities are financed in whole or in large part by fees charged to external parties for goods or services.

Freeport Park District

Notes to Financial Statements

Note 1 Summary of Significant Accounting Policies (Continued)

The Statement of Activities demonstrates the degree to which the direct expense of a given function or identifiable activity is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or identifiable activity.

Program revenues include 1) charges for services which report fees, fines and forfeitures, and other charges to users of the Park District's services; 2) grants and contributions which finance annual operating activities including restricted investment income; and 3) capital grants and contributions which fund the acquisition, construction, or rehabilitation of capital assets and include fees to developers. Taxes and other revenue sources not properly included with program revenues are reported as general revenue.

Separate fund financial statements are provided for governmental funds, proprietary funds and if applicable, fiduciary funds which are not included in the government-wide financial statements.

Funds of the Park District are organized into two major categories: governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the Park District or meets the following criteria:

- 1) Total assets, liabilities, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type: and
- 2) Total assets, liabilities, revenues or expenditures/expenses of the individual governmental fund or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

Fund Financial Statements

The fund types of the reporting entity are described below:

Governmental Funds

General Fund - The general fund is the primary operating fund of the Park District and is always classified as a major fund. It is used to account for all activities except those legally or administratively required to be accounted for in all other funds. The Park District's general fund accounts for the operation of the Park District's administration.

Special Revenue Funds - Special Revenue Funds are used to account for the proceeds of specific revenue sources such as police fines, special recreational programs, and regular recreational programs including pool revenue that are legally restricted to expenditures for certain purposes.

Freeport Park District

Notes to Financial Statements

Note 1 Summary of Significant Accounting Policies (Continued)

Government Wide and Fund Financial Statements (Continued)

Capital Projects Fund - The Capital Projects Fund is used to account for resources restricted for the acquisition or construction of specific capital projects or items. Funding is provided both through annual capital improvement bond sale proceeds and, state and federal grants.

Debt Service Fund - The Debt Service Fund accounts for the accumulation of financial resources for the payment of interest and principal on the general long-term debt of the Park District other than debt service payments made by enterprise funds. Ad valorem taxes are used for the payment of principal and interest on the District's debt retirement requirements.

Proprietary Funds

Enterprise Fund - The Enterprise Fund is used to account for business-like activities to the general public. The activities are financed primarily by user charges and the measurement of financial activity focuses on net income measurement similar to the private sector. The Enterprise Fund includes the Golf Course Fund.

Freeport Park District

Notes to Financial Statements

Note 1 Summary of Significant Accounting Policies (Continued)

Government Wide and Fund Financial Statements (Continued)

Major and Non-major Funds

The Funds are further classified as major or non-major as follows:

<u>Fund</u>	<u>Description</u>
Major:	
General Fund	See above for description
Special Revenue Funds:	
Recreation Fund	Accounts for activities of promoting and maintaining recreational programs of the Park District.
Social Security/Municipal Retirement Fund	Accounts for activities resulting from participation in both the Illinois Municipal Retirement Program and the Federal government’s Social Security program.
Museum Fund	Accounts for operation of the Park District’s museum facility and functions. Funding is provided by property tax levy.
Tort Liability Fund	Accounts for the Park District’s insurance and risk management
Debt Service Fund	See above for description
Capital Projects Fund	See above for description
Enterprise Fund:	
Golf Course Funds	See above for description
Non-major:	
Special Revenue Funds:	
Special Recreation Fund	Accounts for the operation of the Park District’s special recreational programs. Funding is provided by property tax levy and program fees.
Police Fund	Accounts for the operation of a portion of the expense salary of the Police Dept. Funding is provided by property tax levy and assessed fines.
Audit Fund	Accounts for expenditures in connection with the Park District’s annual financial compliance audit as mandated by state statute. Funding is provided by property tax levy.

Under the GASB issued Statement 34, the District may report any governmental fund as a major fund if the government’s officials believe the fund is “particularly important to financial statement users”. The District has chosen to include the Social Security / Retirement funds and Museum Fund as major even though the fund calculations do not classify them as major funds. The District views these funds as particularly important to the financial statement users.

Freeport Park District

Notes to Financial Statements

Note 1 Summary of Significant Accounting Policies (Continued)

Measurement Focus, Basis of Accounting and Basis of Presentation

Measurement focus is a term used to describe which transactions are recorded within the various financial statements. Basis of accounting refers to when transactions are recorded regardless of the measurement focus applied.

The government-wide financial statements and the proprietary fund financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recognized when earned and expenses are recognized when a liability is incurred, regardless of when the cash is received or paid.

The Governmental Funds Financial Statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized when they are generally measurable and available. Revenues are considered to be available if they are received within the current reporting period or soon enough thereafter in order to pay the current liabilities of the current period. The Park District generally considers revenues to be available if received within 60 days after the end of the fiscal year. Expenditures are usually recorded when a liability is incurred under the modified accrual basis. Expenditures for debt service and compensated absences are recorded when they become due. The government-wide financial statements classify expenses by function for both governmental and business-type activities.

Governmental funds report expenditures relating to use of financial resources. Proprietary funds report expenses relating to use of economic resources.

In the fund financial statements, expenditures are classified as follows:

Governmental Funds - By character:

Current (further classified by function), Capital Outlay, or Debt Service

In the propriety fund financial statements, expenses are classified as operating and non-operating.

Permanent re-allocation of resources between funds of the reporting entity are classified as interfund transfers. For the purposes of the Statement of Activities, all interfund transfers between individual governmental funds have been eliminated.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that may affect certain reported amounts and disclosures; accordingly, actual results could differ from those estimates.

Freeport Park District

Notes to Financial Statements

Note 1 Summary of Significant Accounting Policies (Continued)

Cash and Investments

The Park District maintains and controls several major cash accounts in which the general, special revenue, capital projects funds and the golf course funds are pooled but accounted for separately by fund. Each fund whose monies are deposited in the pooled cash accounts has equity therein, and interest earned on the investment of these monies is allocated based upon relative equity at year end. An individual fund's monies in pooled cash accounts are available upon demand and are considered to be "cash equivalents" when preparing these financial statements. In addition, any marketable securities not included in the common pooled accounts that are purchased with maturity of ninety days or less are also considered to be "cash equivalents".

Occasionally one or more of the funds participating in the common bank account will incur overdrafts (deficits) in the account. The overdrafts result from expenditures which have been approved by the Park District Board. Negative balances incurred in pooled cash and investments at year end are shown as due to/from balances in the financial statements. At year end, no funds had deficit balances in the cash or investment commingled accounts.

For purposes of the proprietary fund Statement of Cash Flows, "cash, cash equivalents, and investments" include all demand and savings accounts, and certificate of deposits or short-term investments with an original maturity of three months or less.

All investments are recorded at their fair value based on quoted market prices. Cash deposits are reported at carrying amount which reasonably estimates fair value. Additional cash and investment disclosures are presented in Note (2).

Investments of the District are limited by State law to the following:

1. Direct obligations of the U.S. Government or its agencies or instrumentalities to which the full faith and credit of the US Government is pledged, or obligations to the payment of which the full faith and credit of the State of Illinois is pledged.
2. Certificates of deposit or savings accounts which are either insured or secured with acceptable collateral with in-state financial institutions, and fully insured certificates of deposit or savings accounts in out-of-state financial institutions.
3. With certain limitation, negotiable certificates of deposit, prime bankers acceptances, prime commercial paper, and repurchase agreements with certain limitations.
4. Money market funds regulated by the SEC and in which investments consist of the investments mentioned in the previous items 1, 2, and 3.

Freeport Park District

Notes to Financial Statements

Note 1 Summary of Significant Accounting Policies (Continued)

Prepaid Items

Prepaid balances are for payments made by the Park District in the current year to provide services occurring in the subsequent fiscal year, and the reserve for prepaid items has been recorded to signify that a portion of fund balance is not available for other subsequent expenditures. The Park District did not have any prepaid balances at year end.

Inventories

The Park District owns and operates a municipal golf course. The course offers a Pro Shop with a varied full line of golfing merchandise. Merchandise inventory is stated at lower of cost or net realizable value to reflect the amount of items on hand at March 31, 2020.

Interfund Receivables and Payables

Any residual balances between the governmental activities and business-type activities are reported in the governmental-wide financial statements as "internal balances". There were no interfund balances that required elimination in the government-wide financial statements at March 31, 2020.

Receivables

In the government-wide financial statements, receivables consist of all revenues earned at year-end and not yet received. The Park District considers the allowance for uncollectible accounts receivable and the allowance for uncollectible property taxes receivable as immaterial and therefore has chosen to not record an allowance for these items. Major receivables balances for the governmental activities include property taxes and police fines. Business-type activities have no reported receivables.

In the fund financial statements, material receivables in governmental funds include revenue accruals such as grants and other similar intergovernmental revenues since they are usually both measurable and available. Non-exchange transactions collectible but not available are deferred in the fund financial statements in accordance with the modified accrual basis of accounting. Interest and investment earnings are recorded when earned only if paid within 60 days since they would be considered both measurable and available. Proprietary fund material receivables consist of all revenues earned at year-end and not yet received.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time.

Freeport Park District

Notes to Financial Statements

Note 1 Summary of Significant Accounting Policies (Continued)

Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets are reported in the applicable governmental or business-type activities columns in the government-wide financial statements and in the fund financial statements for proprietary funds. All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend useful lives are not capitalized. Estimated historical cost was used to value the majority of the assets acquired prior to April 1, 2004.

Assets capitalized, including infrastructure assets, have an original cost of \$10,000 or more and an estimated useful life in excess of three years. Depreciation has been calculated on each class of depreciable property using the straight-line method. Donated capital assets are recorded at their acquisition value at the date of donation.

Estimated useful lives are as follows:

Buildings	20 - 50 years
Equipment	5 - 20 years
Vehicles	5 - 10 years
Infrastructure	25 - 40 years
Improvements	15 - 20 years

Infrastructure assets prior to April 1, 2004 have not been capitalized.

Long-term Debt

The accounting treatment of long-term debt depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

All long-term debt to be repaid from governmental and business-type resources are reported as liabilities in the government-wide financial statements. The long-term debt consists primarily of bonds payable.

Long-term debt for governmental funds is not reported as liabilities in the fund financial statements. The debt proceeds are reported as other financing sources and payment of principal and interest reported as expenditures. The accounting for the proprietary fund is the same in the fund statements as it is in the government-wide statements.

The Illinois Park District Code limits the amount of outstanding general obligation bonded debt of the Park District to no more than 5.75% of net assessed valuation. For the year ended March 31, 2020, the Park District had outstanding general obligation debt of \$563,580.

Freeport Park District

Notes to Financial Statements

Note 1 Summary of Significant Accounting Policies (Continued)

Legal Debt Margin

Based on assessed valuation for fiscal year 2020 of \$212,333,449 the legal debt margin is:

Statutory Debt Limitation	\$212,333,449 x 5.75% =	\$12,209,173
Total Debt Outstanding		<u>563,580</u>
Legal Debt Margin		<u>\$11,645,593</u>

Compensated Absences

Full-time, permanent employees are granted vacation benefits in varying amounts to specified maximums depending on tenure with the Park District. The liability for these compensated absences is recorded in the government-wide financial statements. Governmental funds report only the compensated absences liability payable from expendable available financial resources, while the proprietary funds report the liability as it is incurred.

Equity Classifications

Fund Balance

Clearly defined fund balance categories are shown below to make the nature and extent of the constraints placed on a government's fund balance more transparent. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- Non-spendable fund balance - amounts that are not in a spendable form (such as inventory) or are required to be maintained intact;
- Restricted fund balance - amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation;
- Committed fund balance - amounts constrained to specific purposes by a government itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest-level action to remove or change the constraint;
- Assigned fund balances - amounts a government intends to use for a specific purpose; intent can be expressed by the governing body or by an official or body to which the governing body delegate the authority;
- Unassigned fund balance - amounts that are available for any purpose; positive amounts are reported only in the general fund.

Freeport Park District

Notes to Financial Statements

Note 1 Summary of Significant Accounting Policies (Continued)

Equity Classifications (Continued)

Fund Balance (Continued)

The Board of Commissioners establishes (and modifies or rescinds) fund balance commitments by passage of a resolution. Only the Board of Commissioners may modify or rescind this commitment. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund.

Assigned fund balance is established by the Board of Commissioners through adoption or amendment of the budget as intended for specific purpose (such as the purchase of fixed assets, construction, debt service, or other purpose).

When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the Park District's policy to use restricted amounts first and then unrestricted amounts as they are needed.

For unrestricted amounts of fund balance, it is the Park District's policy to use fund balance in the following order:

- Committed
- Assigned
- Unassigned

Government-wide Statements

Equity is classified as net position and displayed in three components:

Net investment in capital assets - consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted - consists of net position with constraints placed on the use either by (a) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (b) law through constitutional provisions or enabling legislation.

Unrestricted – net position that does not meet the definition of “restricted” or “net investment in capital assets”.

Fund Statements

Proprietary fund equity is classified the same as in the government-wide statements.

Freeport Park District

Notes to Financial Statements

Note 1 Summary of Significant Accounting Policies (Continued)

Property Taxes

The Park District recognizes property tax revenue utilizing the “available” basis. Available means when due, or past due and receivable within the current period and collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Such time period shall not exceed 60 days past the end of the current fiscal year.

For those funds on the modified accrual basis, the current year tax levy is recorded as Property Taxes Receivable with a corresponding entry to Property Tax Revenue to reflect those taxes received within 60 days after the end of the fiscal year. The remainder of the Receivable is recorded as Deferred Inflows of Resources.

The Park District’s property tax is levied each year on all taxable real property located in the District on or before the last Tuesday in December. The 2018 tax levy was passed by the Board on December 18, 2018. The 2019 tax levy was passed by the Board on December 17, 2019. Property taxes attach as an enforceable lien on property as of January 1 and are payable in two installments, usually in June and September. The District has elected, under governmental accounting standards, to match its property tax revenues to the fiscal year that the tax levy is intended to finance. Therefore, the entire 2018 tax levy has been recorded as revenue this fiscal year.

For the fiscal year ended March 31, 2020, the Park District had not received any of their 2019 tax levy. This entire tax levy has been recorded as a receivable and unavailable revenue on the financial statements.

Freeport Park District

Notes to Financial Statements

Note 1 Summary of Significant Accounting Policies (Continued)

Special Accounts/Restrictions

Park Hills Master Plan Account Restriction

The Board of Commissioners, at their March 17, 1992 meeting, approved the establishing of a separate “fund” or account within the Enterprise Fund to be named the Park Hills Master Plan. Annually, 50% of the net income, if any, from all Park Hills operations is to be transferred into the Master Plan account to be used for future renovations approved by the Board from the priority listing supplied to them by the architect.

During the fiscal year ended March 31, 2020, Park Hills yielded a net loss from operations, which therefore does not allow for a transfer allocation to be made in this fiscal year.

The Master Plan Account is restricted by its original establishment for future use. These are Board restrictions only and are subject to review and possible change by future Boards. As future projects arise, the Board reviews and approves the expenditures based on the merit to the Park District of each project.

Park Hills Irrigation Account

The Park District Board of Commissioners, during their October 5, 1999 meeting, voted to create a new Golf Irrigation “Fund”/account within the Enterprise Fund. Annually, an amount of money equal to the difference between the original bond payment schedule and the refunding bond payment schedule for the Series 1989 bond will be transferred to the new Golf Irrigation account. The purpose of the account is to begin accumulating funds for the purpose of paying future irrigation project expenditures. Final payment on the Series 1989 bond was made during a prior fiscal year, therefore no current year transfer was required to be made to the Golf Irrigation Fund.

For the year ending March 31, 2020, the accumulated Board internal designations within the Enterprise Fund’s unrestricted net position were \$395,248 for capital projects, \$101,797 for golf cart replacement, and \$384,490 for general course improvement.

Budget Basis of Accounting

The Park District budgets for all General, Special Revenue, Proprietary, Debt Service and Capital Project Fund types. The Park District's budget is prepared on a basis consistent with generally accepted accounting principles, except the proprietary fund which adopts a current financial resources measurement focus budget in that depreciation is not budgeted and capital outlay is budgeted.

Freeport Park District

Notes to Financial Statements

Note 1 Summary of Significant Accounting Policies (Continued)

Budget Basis of Accounting (Continued)

The ordinance was passed on June 18, 2019 and was not amended. For each fund, total fund expenditures may not legally exceed the budgeted expenditures. The ordinance lapses at the end of each fiscal year.

The Park District follows these procedures in establishing the budgetary data reflected in the financial statements:

- a) Prior to July 1, the Park District prepares an annual appropriation ordinance for the fiscal year commencing April 1 of that year. The ordinance includes proposed expenditures and the means of financing them.
- b) Legal spending and management control for Park District monies is at the fund level. The Park District may amend the ordinance after the first half of the year by a two-thirds vote of all Park District board members. The board may make transfers between funds, but no appropriation may be reduced below an amount sufficient to cover such obligation.

Note 2 Deposits and Investments

Deposits

Separate bank accounts are not maintained for all Park District funds; instead, certain funds maintain their cash balances in a common checking account and a common investment account, with the accounting records being maintained to show the portion of the common bank account balance attributable to each participating fund. Occasionally certain funds participating in the common bank account will incur overdrafts (deficit cash balances) in the account. A deficit in one fund restricts the cash available for use by other funds in the same common bank account.

Custodial credit risk for deposits is the risk that in the event of a bank failure, the Park District's deposits may not be returned, or the Park District will not be able to recover collateral securities in the possession of an outside party. The Park District's policy requires deposits in excess of the Federal Deposit Insurance Corporation limits to be secured by collateral valued at market or par, whichever is lower.

State statutes require that all deposits in financial institutions be fully collateralized by U.S. Government obligation or its agencies and instrumentalities or direct obligation of the State of Illinois or its agencies or instrumentalities that have a market value of not less than the principal amount of the deposits. The Park District's deposits, including certificates of deposits, were fully insured or collateralized as required by the state statutes at March 31, 2020.

At year end, the carrying amount of the Park District's deposits was \$5,911,336, which excludes several petty cash funds totaling \$1,219 held at the Park District. The bank balance was \$5,921,773.

Freeport Park District

Notes to Financial Statements

Note 2 Deposits and Investments (Continued)

Cash, cash equivalents, and investments as of March 31, 2020 are classified in the accompanying financial statements as follows:

Statement of Net Position

Cash, cash equivalents, and investments	\$5,912,555
Restricted:	
Investments in trust	<u>64,664</u>
Total cash, cash equivalents, and investments (including trust)	<u>\$5,977,219</u>

Cash, cash equivalents, and investments as of March 31, 2020 consist of the following:

Cash on hand	\$ 1,219
Deposits with financial institutions	3,025,966
Investments in trust	64,664
Certificates of deposit	<u>2,885,370</u>
Total cash, cash equivalents, and investments (including trust)	<u>\$5,977,219</u>

As of March 31, 2020, all of the Park District’s bank balances were covered by federal depository insurance or by collateral held by the Park District’s agent in the Park District’s name.

The Park District is allowed to invest in Securities as authorized by 85 ILCS 901 and 85 ILCS 906. The Park District has a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates and limits its investment choices to those allowed by Illinois law and in the amount the Park District may invest in any one issuer.

Custodial credit risk for investments is the risk that, in the event of the failure of the counter-party (e.g. broker-dealer) to a transaction, the Park District will not be able to recover the value of its investment or collateral securities that are in the possession of another party. With respect to investments, custodial credit risk generally applies only to direct investments in marketable securities. Custodial credit risk does not apply to indirect investments in securities through use of mutual funds or governmental investment pools. The Park District’s exposure to this risk is \$-0- for marketable securities directly held by the investment corporation.

The Park District’s investments (fair value quoted at market prices) as of March 31, 2020 are considered Level 1 (traded in active exchange markets) with no risk rating and are as follows:

	<u>Fair Value</u>	<u>Cost</u>
Gelwick’s Trust Account	<u>\$64,664</u>	<u>\$59,883</u>

Freeport Park District

Total	<u>\$ 103,310</u>		<u>(\$19,702)</u>	<u>\$ 83,608</u>	<u>\$8,293</u>

Note 5 Employee Pension and Other Pension Benefit Plans

The Park District participates in two employee retirement/pension plan/systems as follows:

A Deferred Compensation Plan and the Illinois Municipal Retirement Fund (IMRF)

Freeport Park District

Notes to Financial Statements

Note 5 Employee Pension and Other Pension Benefit Plans (Continued)

Deferred Compensation Plan

The Park District offers its employees a deferred compensation plan created in accordance with Internal Revenue code Section 457. The plan, available to all eligible Park District employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency. The plan was approved to comply with IRC Section 457(g) which allows for the plan to hold its assets in trust. Under these requirements, the assets of the plan are not subject to the general creditors of the Park District, the Park District does not own the amount deferred by employees and, therefore, the liability and corresponding investment are not reflected in the financial statements.

Benefit Pension Plan

Plan Description - The Park District's defined benefit pension plan for regular employees provides retirement and disability benefits, post-retirement increases, and death benefits to plan members and beneficiaries. The Park District's plan is managed by the Illinois Municipal Retirement Fund (IMRF), the administrator of an agent multi-employer public pension fund. A summary of IMRF's pension benefits is provided in the "Benefits Provided" section of this document. Details of all benefits are available from IMRF. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available Comprehensive Annual Financial Report that includes financial statements, detailed information about the pension plan's fiduciary net position, and required supplementary information. The report is available for download at www.imrf.org.

Benefits provided - IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

All three IMRF benefit plans have two tiers. Employees hired **before** January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Freeport Park District

Notes to Financial Statements

Note 5 Employee Pension and Other Pension Benefit Plans (Continued)

Benefit Pension Plan (Continued)

Employees hired *on or after* January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the *lesser* of:

- 3% of the original pension amount, or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

Employees Covered by the Benefit Terms - At the December 31, 2019 valuation date, the following employees were covered by the benefit terms:

Retirees and beneficiaries currently receiving benefits	17
Inactive plan members entitled to but not yet receiving benefits	7
Active plan members	20
<hr/>	
Total	44
<hr/>	

Contributions - As set by statute, the Park District’s Regular Plan Members are required to contribute 4.5% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The Park District’s annual contribution rate for calendar year 2019 was 2.47%. For the fiscal year ended March 31, 2020, the Park District contributed \$28,421 to the plan. The Park District also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by IMRF’s Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Net Pension Liability (Asset) - The Park District’s Net Pension Liability (Asset) was measured as of December 31, 2019. The total pension liability (asset) used to calculate the Net Pension Liability (Asset) was determined by an annual actuarial valuation as of that date.

Freeport Park District

Notes to Financial Statements

Note 5 Employee Pension and Other Pension Benefit Plans (Continued)

Benefit Pension Plan (Continued)

Actuarial assumptions - The following are the methods and assumptions used to determine total pension liability at December 31, 2019:

- The **Actuarial Cost Method** used was Entry Age Normal.
- The **Asset Valuation Method** used was Market Value of Assets.
- The **Inflation Rate** was assumed to be 2.50%.
- **Salary Increases** were expected to be 3.35% to 14.25%, including inflation.
- The **Investment Rate of Return** was assumed to be 7.50%.
- **Projected Retirement Age** was from the Experience-based Table of Rates, specific to the type of eligibility condition. Last updated for the 2017 valuation according to an experience study of the period 2014 to 2016.
- **Mortality** For non-disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that were applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.
- The **long-term expected rate of return** on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table as of December 31, 2019:

Asset Class	Portfolio Target Percentage	Long-Term Expected Real Rate of Return
Domestic Equity	37%	5.75%
International Equity	18%	6.50%
Fixed Income	28%	3.25%
Real Estate	9%	5.20%
Alternative Investments	7%	3.60-7.60%
Cash Equivalents	1%	1.85%
Total	100%	

Freeport Park District

Notes to Financial Statements

Note 5 Employee Pension and Other Pension Benefit Plans (Continued)

Single Discount Rate

A Single Discount Rate of 7.25% was used to measure the total pension liability. The projection of cash flow used to determine this Single Discount Rate assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The Single Discount Rate reflects:

1. The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits), and
2. The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of the most recent valuation, the expected rate of return on plan investments is 7.25%, the municipal bond rate is 2.75%, and the resulting single discount rate is 7.25%.

Changes in Net Pension Liability

	Increase (Decrease)		
	Total Pension Liability	Plan Fiduciary Net Position	Net Pension Liability (Asset)
Balance January 1, 2019	\$5,899,570	\$6,027,765	(\$128,195)

Freeport Park District

Notes to Financial Statements

Note 5 Employee Pension and Other Pension Benefit Plans (Continued)

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate - The following presents the Park District's proportionate share of the net pension liability calculated using the discount rate of 7.25 percent, as well as what the Park District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25 percent) or 1-percentage-point higher (8.25 percent) than the current rate:

	1% Lower (6.25%)	Current Rate (7.25%)	1% Higher (8.25%)
Park District's proportionate share of the net pension liability (asset)	(\$23,371)	(\$774,086)	(\$1,396,376)

Pension plan fiduciary net position - Detailed information about the pension plan's fiduciary net position is available in the separately issued IMRF financial report which is publicly available at <http://imrf.org>.

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions - For the year ended March 31, 2020 the Park District had a pension expense (income) of (\$24,448). At March 31, 2020, the Park District had deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

<u>Deferred Amounts Related to Pensions</u>	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
<i>Deferred amounts to be recognized in pension expense in future periods:</i>		
Differences between expected and actual experience	\$ 66,500	\$34,355
Changes in assumptions	82,723	47,835
Net difference between projected and actual earnings on pension plan investments	-	231,595
Total deferred amounts to be recognized in pension expense in future periods	149,223	313,785
Pension contributions made subsequent to the measurement date	10,374	-
Total deferred amounts related to pensions	\$159,597	\$313,785

Freeport Park District

Notes to Financial Statements

Note 5 Employee Pension and Other Pension Benefit Plans (Continued)

The Park District reported \$10,374 as deferred outflows of resources related to pensions resulting from employer contributions subsequent to the measurement date and will be recognized as a reduction of the net pension liability in the reporting year ended March 31, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

	Net Deferred Inflows of Resources
2021	(44,035)
2022	(31,634)
2023	38,802
2024	(127,695)
Thereafter	-
Total	<u>(\$164,562)</u>

Social Security

Employees not qualifying for coverage under the IMRF are considered as “non-participating employees” and are covered under Social Security.

Note 6 Risk Management

The Park District is exposed to various risks of loss related to torts, theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The Park District purchases insurance as a participant in the Illinois Parks Association Risk Services, a public entity risk pool, to provide the Park District with such insurance coverage. The deductibles in effect through these policies as of March 31, 2020 range from \$0 - \$5,000. During the year ended March 31, 2020, there were no significant reductions in insurance coverage. Also, there have been no settlement amounts which have exceeded insurance coverage in each of the past three years. Potentially the Park District could be assessed additional premiums for its share of any losses of the pool. Historically, the Park District has not been assessed any additional premiums.

Note 7 Restricted Fund Balances and Net Position

Recreation Fund - Endowment Account

The Park District received a permanently restricted contribution during 1997 from Gelwicks Trust stipulating that the contribution is to be used solely for purposes of maintaining and updating the Oakdale Nature Preserve and Trails. The Park District invested these funds in a separate investment management account at State Bank - Freeport. All income and expenses relative to this activity have been recorded in the Recreation Fund and the cumulative remaining fund balance at March 31, 2020 of \$64,664 has been restricted within that fund.

Freeport Park District

Notes to Financial Statements

Note 7 Restricted Fund Balances and Net Position (Continued)

The following table shows the net position restricted for debt and other purposes as shown in the Statement of Net Position:

Governmental activities:		
Special Revenue Funds	Enabling Legislation	\$ 1,045,698
Special Revenue Fund	Donor Trust Restrictions	64,664
Debt Service	Enabling Legislation	132,918
General Fund Liability Ins.	Enabling Legislation	868,484
Municipal Retirement Fund	State and Federal Pension	<u>457,949</u>
		<u>\$2,569,713</u>

Note 8 Operating Budget

The Park District is required statutorily to adopt a combined annual budget and appropriation ordinance. Such ordinance presents cash on hand at the beginning of the fiscal year, an estimate of cash expected to be received in the fiscal year, an estimated amount of expenditures contemplated in the fiscal year, and a statement of estimated cash on hand at the end of the fiscal year. The budgeted revenues and expenditures contemplated and reported in the financial statements represent the budgeted figures from the Park District's combined annual budget and appropriation. The funds listed below are those funds that exceeded the combined annual budget and appropriation during the fiscal year ending March 31, 2020:

<u>Fund</u>	<u>Budget</u>	<u>Expenditures</u>	<u>Variance</u>
Special Recreation	\$97,043	\$105,506	\$8,463
Golf Course	\$870,624	\$892,775	\$22,151

Note 9 Interfund Receivables, Payables, and Transfers

There were no individual fund interfund receivables and payables as of March 31, 2020.

Freeport Park District

Notes to Financial Statements

Note 9 Interfund Receivables, Payables, and Transfers (Continued)

The purpose of the individual interfund receivables and payables is due to temporary borrowings in the commingled cash and investments accounts to cover short-term cash flow shortages.

The individual fund interfund transfers as of March 31, 2020 are as follows:

	<u>Transfer In</u>	<u>Transfer Out</u>
General Fund – Corporate Fund	\$ 30,770	\$ 10,000
Debt Service Fund	-	692,580
Capital Projects Fund	692,580	-
Recreation Fund	-	-
Other Governmental Funds	10,000	10,000
Golf Course Fund	<u>-</u>	<u>20,770</u>
	<u>\$733,350</u>	<u>\$733,350</u>

The Interfund Transfers are approved during the budget approval process. An interfund transfer was made from Police Fund to the General Fund for reimbursement of expenses and from the Debt Service Fund to Capital Projects Fund for bond proceeds. Additional transfers were made from the Golf Course Fund to the General Fund for reimbursement of administrative services.

Note 10 Contingencies

From time to time, the Park District is party to other pending claims and legal proceedings. Although the outcome of such matters cannot be forecast with certainty, it is the opinion of management that the likelihood is remote that any such claims or proceedings will have a material adverse effect on the Park District’s financial position or results of operations.

Note 11 Post-Employment Benefits

The Park District has evaluated its potential postemployment benefits liability. The Park District provides continued health insurance coverage at the active employer rate to all eligible employees in accordance with Illinois statutes, which creates an implicit subsidy of retiree health insurance. Retirees who choose to retain their rights to health insurance through the Park District are required to pay a percentage of the current premium. Few retired employees have chosen to stay in the Park District’s health insurance plan. Therefore, there has been low utilization and, therefore, an immaterial implicit and explicit subsidy to calculate in accordance with GASB Statement No. 75, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*. Therefore, the Park District has not recorded any postemployment benefit liability as of March 31, 2020.

Freeport Park District

Notes to Financial Statements

Note 12 Pending Accounting Pronouncements

GASB Statement No. 87, *Leases*, improves accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. The requirements of this Statement are effective for reporting periods beginning after June 15, 2021. The Park District has not determined the effect of this Statement.

GASB Statement No. 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*, provides more relevant information about capital assets and the cost of borrowing for a reporting period. This Statement's objectives are (1) to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before the end of a construction period. The requirements of this Statement are effective for reporting periods beginning after December 15, 2020. The Park District has not determined the effect of this Statement.

GASB Statement No. 91, *Conduit Debt Obligations*, clarifies the existing definition of a conduit debt obligation; establishes that a conduit debt obligation is not a liability of the issuer; establishes standards for accounting and financial reporting of additional commitments and voluntary commitments extended by the issuers and arrangements associated with conduit debt obligations; and improves required note disclosures. The requirements of this Statement are effective for reporting periods beginning after December 15, 2021. The Park District has not determined the effect of this Statement.

GASB Statement No. 92, *Omnibus 2020*, improves the consistency of several practice issues that have been identified during implementation and application of certain GASB Statements. The requirements of this Statement are effective for reporting periods beginning after June 15, 2021. The Park District has not determined the effect of this Statement.

GASB Statement No. 93, *Replacement of Interbank Offered Rates*, amends certain hedge accounting from GASB Statement No. 53 and variable lease payments in accordance with GASB Statement No. 87. The requirements of this Statement are effective for reporting periods beginning after June 15, 2021. The Park District has not determined the effect of this Statement.

GASB Statement No. 94, *Public-Private and Public-Public Partnerships and Availability Payment Arrangements*, provides more guidance for accounting and financial reporting for availability payments arrangements. The requirements of this Statement are effective for reporting periods beginning after June 15, 2022. The Park District has not determined the effect of this Statement.

Freeport Park District

Notes to Required Supplementary Information

a. Budgets

The Park District prepares its annual budget on a basis consistent with generally accepted accounting principles, except the proprietary funds which adopt a current financial resources measurement focus budget in that depreciation is not budgeted and capital outlay is budgeted. Annual appropriated budgets are adopted for the General, Special Revenue, Debt Service and Enterprise Funds. All annual appropriations lapse at fiscal year-end.

The proposed budget is presented to the governing body for review. The governing body holds public hearings and may add to, subtract from, or change appropriations, but may not change the form of the budget.

The treasurer is authorized to transfer amounts between departments within any fund; however, any revisions that alter total expenditures of any fund must be approved by the governing body.

Expenditures may not legally exceed budgeted appropriations at the fund level. The final budget figures included in this report do not include any amendments increasing the originally adopted budget.

b. Excess of Actual Expenditures/Expenses Over Budget in Individual Funds

The following major fund had expenditures that exceeded appropriated budgets: Golf Course Fund.

c. Summary of Actuarial Methods and Assumptions Used in the Calculation of the 2019 Contribution Rate for IMRF*

Methods and Assumptions Used to Determine 2019 Contribution Rates:

Actuarial Cost Method	Aggregate Entry Age Normal
Amortization Method	Level Percentage of Payroll, Closed
Remaining Amortization Period	Non-Taxing bodies: 10-year rolling period. Taxing bodies (Regular, SLEP and ECO groups): 24-year closed period. Early Retirement Incentive Plan liabilities: a period up to 10 years selected by the Employer upon adoption of ERI. SLEP supplemental liabilities attributable to Public Act 94-712 were financed over 19 years for most employers (three employers were financed over 28 years and four others were financed over 29 years).
Asset Valuation Method	5-Year smoothed market; 20% corridor
Wage growth	3.25%

Freeport Park District

Notes to Required Supplementary Information (Continued)

c. Summary of Actuarial Methods and Assumptions Used in the Calculation of the 2019 Contribution Rate for IMRF* (continued)

Price Inflation	2.50% - approximate; No explicit price inflation assumption is used in this valuation.
Salary Increases	3.35% to 14.25% including inflation
Investment Rate of Return	7.50%
Retirement Age	Experience-based table of rates that are specific to the type of eligibility condition. Last updated for the 2017 valuation pursuant to an experience study of the period 2014-2016.
Mortality	For non-disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that were applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.

Other Information:

Notes There were no benefit changes during the year.

* Based on Valuation Assumptions used in the December 31, 2017 actuarial valuation
