Greens Fertilizer Specifications

17-0-17

Result Expected:

- 1) Quick greening plus sustained feeding with a no surge growth.

General Specifications:

- 1) Fertilizer must be specifically formulated for golf course putting greens.
- 2) Fertilizer must contain nitrogen, phosphorus and potassium.
- 3) Must be non-caking.
- 4) Must spread uniformly and easily.
- 5) Must be dry applied, granular, odorless and dust-free product.

Detailed Specifications:

- 1) Fine size granulation.
- 2) Low burn potential
- 3) Guaranteed analysis of 17% nitrogen: 0% phosphorus: 17% potassium

Greens Fertilizer Specifications

Anderson's DG

14 - 7 - 14

Results Expected:

- 1) Quick greening plus sustained feeding with a no surge growth.

General Specifications:

- 1) Fertilizer must be specifically formulated for golf course putting greens.
- 2) Fertilizer must contain nitrogen, phosphorus and potassium.
- 3) Must be non-caking.
- 4) Must spread uniformly and easily.
- 5) Must be dry applied, granular, odorless and dust-free product.

Detailed Specifications:

- 1) Fine size granulation.
- 2) Low burn potential
- 3) Guaranteed analysis 14% nitrogen, 7% phosphorus, 14% potassium

Greens Fertilizer Specifications

K Turf Fertilizer: Analysis 0 – 0 – 50

- 1) Potassium Source: 100% sulfate of potash.

Amount Needed:

- 1) 30 bags

Results Needed:

- 1) Quick greening plus sustained feeding with no surge growth.
- 2) Fertilizer response must last 10 to 12 weeks.

General Specifications:

- 1) Fertilizer must contain 0% nitrogen, 0% phosphorus and 50% potassium.
- 2) Must be non-burning.
- 3) Must be non-caking.
- 4) Must spread uniformly and easily.
- 5) Must be dry applied, granular, odorless, non-burning and dust-free product.

BIDDERS PROPOSAL – FAIRWAY FERTILIZER

Bidder shall submit literature describing the products they propose to furnish as well as a complete set of specifications on the products.

We hereby propose to supply materials as set forth in the attached pages of specifications.

The Park Board of Commissioners reserves the right to accept or reject any or all bids.

Amount Needed:

- 1) 10 Tons to 20 Tons in 1000 lb. Bulk Bags

Result Needed:

- 1) Quick greening plus sustained feeding with no surge growth.
- 2) Fertilizer response must last eight to ten weeks.

General Specifications:

- 1) Fertilizer must contain 21% nitrogen; 3% phosphorus and 21% potassium.
- 2) Must be non-burning.
- 3) Must be a sulfur coated slow release urea nitrogen product.
- 4) Must be non-caking.
- 5) Must spread uniformly and easily.
- 6) Must be dry applied, granular, odorless, non-burning and dust free product

Detailed Specifications:

- 1) Apply in mid-June with non-burning and no watering in.
- 2) Medium size granulation
- 3) Guaranteed analysis of 21% nitrogen; 3% phosphorus and 21% potassium.
- 4) Nitrogen Breakdown:
 - a. Water soluble nitrogen from:
 - i. Ammoniacal Nitrogen 1.15%
 - ii. Urea Nitrogen 5.67%
 - b. Slow release nitrogen from:
 - i. Sulfur coated slow release urea nitrogen – 14.18%
- 5) Percent of slow release nitrogen must be 75%
- 6) Must have a 2 – 1 – 2 nutrient ratio that is formulated to give both an immediate and sustained response.
- 7) All of the nitrogen must be available to the turf grass within one (1) growing season.
- 8) Phosphorus derived from:
 - a. Ammoniated Phosphate
- 9) Potash derived from:
 - a. Sulfate of Potash
- 10) Must also contain 10.35% sulfur
- 11) Must be CIL. N5-56 sulfur coated slow release urea nitrogen product.
